At the northern reaches of the Mississippi, Tunica is one of the South's leading entertainment destinations. Just 20 minutes from Memphis, it's home to nine casino resorts and three championship-level golf courses, as well as Tunica River Park, the Tunica Queen Riverboat and the soon-to-open Gateway to the Blues Museum. Tunica is a popular starting point for the Mississippi Blues Trail, a scenic highway that winds through Mississippi and takes you to historic blues markers and landmarks.

Memphis is a pilgrimage for those wanting to visit the birthplace of the blues, soul and of rock 'n' roll. On Beale Street, W.C. Handy put down on paper the first written blues music. Elvis, Roy Orbison, Jerry Lee Lewis and Johnny Cash all recorded at the historic Sun Records, which is now a museum. Graceland, the second most-visited home in America, welcomes visitors from around the world who yearn for a peek into the life of "the King." Beyond the music, Tennessee's largest city also offers much more. It has more sunny days each year than Miami, and combines southern tradition and hospitality with modern amenities. You'll enjoy great dining (be sure to sample the barbecued ribs), art galleries and exciting nightlife.

You are cordially invited to travel with us!

## The Bible says...

*For all our days are passed away in thy wrath: we spend our years as a tale that is told.*

*The days of our years are threescore years and ten; and if by reason of strength they be fourscore years, yet is their strength labour and sorrow: for it is soon cut off, and we fly away.*

*Who knoweth the power of thine anger? even according to thy fear, so is thy wrath.*

A Summerset Centenarian, Harriet Black, Highlighted

Summerset is very proud of each resident. Just sit and talk with them and it is so easy to be proud of the life that each one has lived and each contribution. One resident mentioned the differences in the times and what can be done to assist in making this world a better one. She feels that education is the first step. She feels that if one does not have the desire to learn, we, as adults, have to help. She is constantly encouraging staff at Summerset to continue learning and when they do, she is their biggest cheerleader. One CNA (Certified Nursing Assistant) recently completed his nursing program (RN), graduated, and passed his boards. Mrs. Black tells everyone she sees and how proud she is of him and his accomplishments.

Mrs. Black talks about how she knew as a child she wanted an education and wanted to go to college, and that she did. She graduated from, what is now called, Fort Valley State University, in 1941. She Also, after graduation, taught school for 45 years and loved every minute, making an impact on the lives of young people. She has encouraged so many to continue to learn, continue their education. Many never forgot and come to visit often. In addition to education, she feels that religion should be a part of our lives and working for the Lord. She has been very involved in her church and many of the parishioner come to visit quite frequently.

The owner of Summerset was touting the lives of our residents to a group, and spoke about one of our centenarians, when a gentleman came up and said that his mother went to the same college around the same time as Mrs. Black and wondered, if he could come and meet her. He came over to meet this resident with flowers, a smile, and a question. She laughed and said, "Of course I knew ZK". He was in awe that she remembered his mother so well, by calling her ZK, which was a "nickname" that many did not know that she was affectionately called.

CELEBRATING 2 YEARS CANCER FREE

SURVIVOR

A person who continues to function or prosper in spite of epposition, hardship, or setbacks..

NOVEMBER 17, 2017

5 SURVIVOR

I was diagnosed with Breast Cancer in 2017. I never had any symptoms, no pain, nothing to indicate to me that anything was wrong. I went to the doctor for a totally different reason. They had no medical history on me because my health has always been good... no need to go to the doctor.

So, they needed to run tests, bloodwork, mammogram, etc. A couple of weeks later, I was informed that there was a concern about a lump found on my left breast. A biopsy was performed and the results were malignant.

On November 17, 2017 I had surgery. Today, November 17, 2019, I stand CANCER-FREE.

I thank GOD for my survival. My visit to the doctor was for another concern (nothing major), however, the cancer was detected at a VERY early stage, and I was able to "Beat It."

My message today is that Cancer is not pronounced. It can happen to anyone at any time.

Early detection is critical in beating this ugly disease.

Please practice preventive care as prescribed by your doctor. It could be a matter of "LIFE or DEATH!"

Celebrating 5 years as a Cancer Survivor

Our Father who art in Heaven
Hallowed be thy name
Thy kingdom come thy will be done
On earth as it is in Heaven
Give us this day our daily bread
And forgive us our trespasses
As we forgive those who trespass against us
Lead us not into temptation
But deliver us from evil
For thine is the kingdom
And the power and the glory
